Arwendy Melyndra

Data Analyst

Jakarta, Indonesia | +62 85810387857 | arwendymelyn@gmail.com | LinkedIn | GitHub Portfolio

Professional Summary

Data Analyst experienced in data cleaning, SQL (Google BigQuery), Python, and dashboards (Tableau, Streamlit, Looker Studio). Turns business data into quantified findings on customer churn, e-commerce sales, and subscription revenue, and has validated 11,000+ participant records in real program operations.

Technical Skills

Languages & Libraries: Python (Pandas, NumPy, SciPy), SQL (Google BigQuery), R
Analytics: Data Cleaning, Data Validation, Data Auditing, Exploratory Data Analysis (EDA), RFM Analysis, Window Functions
Visualization: Tableau, Looker Studio, Streamlit, Matplotlib, Seaborn
Spreadsheet: Google Sheets, Microsoft Excel, Pivot Tables, QUERY, FILTER, XLOOKUP, IMPORTRANGE
Tools: Git, GitHub, Jupyter Notebook, Google Colab

Experience

Learning Design Officer Sep 2024 – Apr 2026
dibimbing.id *Jakarta*
- Coordinated 16 concurrent bootcamp batches across Data Analytics, Data Science, AI/ML, Data Engineering, and QA, working with 120+ industry experts.
- Analyzed feedback from 400+ participants in Google Sheets to find satisfaction trends and recommend improvements, which raised program quality.
- Researched technology market trends to align curriculum with industry demand and hiring needs.

Learning Design Code Intern Sep 2023 – Apr 2024, Jul 2024 – Sep 2024
dibimbing.id *Jakarta*
- Ran day-to-day operations for 3, later 6, concurrent bootcamp batches, coordinating 30+ mentors.
- Tracked progress of 100+ participants with 100% data accuracy in the LMS.
- Analyzed 500+ monthly learner feedback records in Google Sheets to support continuous program improvement.

Junior Data Engineer (Contract) Oct 2023 – Dec 2023
PT Asia Research Institute *Jakarta*
- Developed automated Python pipelines to scrape 1,500+ retail Point of Interest (POI) records across Japan, standardizing addresses and mapping them with GeoPandas and Jageocoder.
- Cleaned, validated, and transformed the data in Google BigQuery to produce analysis-ready datasets.

Data Analyst Apprentice Jun 2023 – Dec 2023
GoTo Impact Foundation *Jakarta*
- Built a customer churn prediction model in Python, achieving 91% precision and 72% recall.
- Developed interactive dashboards using SQL and Tableau to analyze education literacy and IT salary trends.

Projects

Samsung Innovation Campus 8 & Solve for Tomorrow 2026 | *Google Sheets, Data Cleaning*
- Validated 11,000+ (Innovation Campus 8) and 3,000+ (Solve for Tomorrow 2026) participant records in Google Sheets for accuracy and consistency.
- Used Pivot Tables, QUERY, FILTER, XLOOKUP, and IMPORTRANGE to build analysis-ready datasets and stakeholder reports.

Customer Churn Analysis | *Python, Pandas, SciPy, Seaborn* *Portfolio project*
- Analyzed 7,000+ telecom customers: month-to-month Fiber optic customers without add-ons are 21.7% of the base but 49.5% of all churners. Recommended a retention campaign with estimated revenue impact.

Beijing Air Quality Dashboard (code) | *Python, Pandas, Streamlit, Seaborn* *Portfolio project*
- Built an interactive Streamlit app comparing 12 monitoring stations: 40.4% of station-days exceed China's 24-hour PM2.5 limit, and winter PM2.5 runs about 47% higher than summer.

E-commerce Sales Analysis (SQL + BigQuery) | *BigQuery SQL, Window Functions, RFM, Python* *Portfolio project*
- Analyzed 48,000 transactions: annual plans are 48.5% of transactions but 88.3% of sales, and discounts cost 4.2% of gross sales with no lift in order size. A data audit found 37.8% of transactions dated before customer signup.

Streaming Subscription Dashboard (Tableau) (code) | *Tableau, Python, Pandas* *Portfolio project*
- Built three dashboards: MRR grew from $1.2K to $8.1K, but 32.5% of MRR comes from system adjustments, and 50% of users are fraud-flagged and produce 70% of sessions.

Education

Universitas Sebelas Maret 2018 – 2022
Bachelor of Informatics and Computer Engineering Education (thesis on data visualization) *GPA: 3.78 / 4.00*

Certifications

Google Data Analytics Professional Certificate — Google (Coursera), Dec 2022

Fresh Graduate Academy, Digital Talent Scholarship — Binar Academy x Kominfo, Apr 2023
