Arwendy Melyndra

Data Analyst

Jakarta, Indonesia | +62 85810387857 | arwendymelyn@gmail.com | linkedin.com/in/arwendy-melyndra-970640200 | github.com/arwendy123

Professional Summary

Data Analyst with experience in data analysis, data cleaning, reporting, and dashboard development using SQL, Python, Google BigQuery, Tableau, and Google Sheets. Experienced in transforming operational data into actionable insights to support business decision-making.

Experience

Learning Design Officer Sep 2024 – Apr 2026
dibimbing.id *Jakarta*

- Coordinated end-to-end operational delivery for 16 concurrent bootcamp batches across Data Analytics, Data Science, AI Machine Learning, Data Engineering, and Quality Assurance programs.
- Collaborated with 120+ industry experts and cross-functional teams to align curriculum delivery with current industry competency standards and ensure smooth program execution.
- Analyzed feedback from 400+ participants using Google Sheets to identify satisfaction trends and recommend data-driven program improvements.
- Conducted technology market research to align curriculum content with evolving industry demands and corporate hiring requirements.

Learning Design Code Intern Jul 2024 – Sep 2024
dibimbing.id *Jakarta*

- Managed day-to-day operations for 6 concurrent AI Machine Learning and Front-End Development bootcamp batches.
- Coordinated schedules and technical sessions with 30+ mentors to ensure smooth learning delivery.
- Analyzed 500+ monthly learner feedback records using Google Sheets to support continuous program improvement.

Learning Design Code Intern Sep 2023 – Apr 2024
dibimbing.id *Jakarta*

- Supported end-to-end operational delivery for 3 Artificial Intelligence bootcamp batches.
- Monitored learning progress for 100+ participants while maintaining 100% data accuracy in the Learning Management System (LMS).

Junior Data Engineer Oct 2023 – Dec 2023
PT Asia Research Institute *Jakarta*

- Developed automated Python pipelines to scrape 1,500+ retail Point of Interest (POI) records across Japan.
- Applied GeoPandas and Jageocoder to standardize addresses and perform geospatial mapping.
- Performed data cleaning, validation, and transformation using Google BigQuery to produce analysis-ready datasets.

Data Analyst Apprentice Jun 2023 – Dec 2023
GoTo Impact Foundation *Jakarta*

- Built a customer churn prediction model using Python, achieving 91% precision and 72% recall.
- Developed interactive dashboards using SQL and Tableau to analyze education literacy and IT salary trends.

Projects

Samsung Innovation Campus 8 | *Google Sheets, Data Cleaning*

- Processed and validated 2,000+ participant records using Google Sheets to ensure data accuracy and consistency.
- Applied Pivot Tables, QUERY, FILTER, XLOOKUP, and IMPORTRANGE to consolidate and transform datasets for analysis.
- Generated analysis-ready datasets and reports to support project monitoring and stakeholder reporting.

Samsung Solve for Tomorrow 2026 | *Google Sheets, Data Cleaning*

- Cleaned and processed 3,000+ participant records using Google Sheets to ensure data accuracy and consistency.

- Applied Pivot Tables, QUERY, FILTER, and IMPORTRANGE to validate, consolidate, and transform datasets for analysis.
- Generated analysis-ready datasets and reports to support project monitoring and stakeholder reporting.

Customer Churn Prediction | *Python, Scikit-learn, XGBoost*

- Built a customer churn prediction model using Python and XGBoost, achieving 91% precision and 72% recall.
- Evaluated multiple classification models using precision and recall metrics to select the best-performing approach.

Retail POI Data Pipeline | *Python, Google BigQuery, GeoPandas, Jageocoder*

- Developed an automated pipeline to scrape and process 1,500+ retail POI records.
- Performed address standardization and geospatial processing for downstream analytics.

Technical Skills

Languages: Python, SQL, R
Analytics: Data Cleaning, Data Validation, Exploratory Data Analysis (EDA)
Libraries: Pandas, NumPy
Visualization: Tableau, Looker Studio
Database: Google BigQuery
Spreadsheet: Google Sheets, Microsoft Excel, Pivot Tables, QUERY, FILTER, IMPORTRANGE
Tools: Git, GitHub, Jupyter Notebook, Google Colab

Education

Universitas Sebelas Maret 2018 – 2022
Bachelor of Informatics and Computer Engineering Education *GPA: 3.78 / 4.00*

Certifications

Google Data Analytics Professional Certificate — Google
